

Chief Nuclear Officer
Licensee Address

SUBJECT: ISSUANCE OF ORDER FOR COMPENSATORY MEASURES RELATED TO
FITNESS-FOR-DUTY ENHANCEMENTS APPLICABLE TO NUCLEAR
FACILITY SECURITY FORCE PERSONNEL - PLANT NAME

Dear Mr./Ms. :

The U.S. Nuclear Regulatory Commission (NRC) has issued the enclosed Order that modifies the current license for your facility to require compliance with the specified compensatory measures (CMs). The Order applies to all Addressees listed in Attachment 1 to the enclosed Order. The CMs are listed in Attachment 2 to the enclosed Order. The Commission recognizes that you have voluntarily and responsibly implemented additional security measures following the events of September 11, 2001. However, work hour demands on security force personnel have increased substantially over the past 17 months, and the current terrorist threat environment continues to require heightened security measures. Therefore, the Commission has determined that the security measures addressed by the enclosed CMs should be implemented by licensees as prudent measures to address issues that may arise from fatigue of nuclear facility security force personnel. The Commission has determined that the current threat environment requires that the enclosed Order be effective immediately.

The Order is needed to require prompt, prudent actions to ensure that the appropriate security posture is maintained given the current threat environment. This Order does not obviate the need for licensees to continue to meet the objectives of the current security protective measures level described in NRC Regulatory Issue Summary 2002-12A, "Power Reactors NRC Threat Advisory and Protective Measures System," as promulgated by updated security advisories. Licensees must also continue to maintain the effectiveness of existing security measures taken in response to the events of September 11, 2001, and the Order issued on February 25, 2002. The requirements will remain in effect until the Commission determines otherwise.

The enclosed Order requires responses and actions within specified time frames. Please contact your Licensing Project Manager to facilitate resolution of any issues related to compliance with the requirements in the enclosed Order, or if you have any other questions.

The enclosed Order has been forwarded to the Office of the Federal Register for publication.

Sincerely,

Samuel J. Collins, Director
Office of Nuclear Reactor Regulation
